

## INTEGRATION SOLUTION BETWEEN GIRA AND DNAKE HAS SUCCESSFULLY APPLIED TO OAZA MOKOTOW, POLAND

### THE SITUATION:

New investment of the highest standard. 3 buildings, 69 premises in total. The project wants to ensure consistency in the use of smart home devices for controlling lighting, air conditioning, roller blinds, and more. To achieve this, each apartment is equipped with Gira G1 smart home panel (KNX system). Additionally, the project is looking for an intercom system that can secure the entrances and integrate seamlessly with Gira G1.

### TYPE OF SITE:

Apartment Building

### LOCATION:

Oaza Mokotow, Piaseczyńska 41,  
Warszawa, Poland

# THE SOLUTION:

Oaza Mokotow is a high-end residential complex offering fully secured and seamless access, thanks to the integration of DNAKE's intercom system and Gira's smart home features. This integration allows for centralized management of both intercom and smart home controls through a single panel. Residents can use the Gira G1 to communicate with visitors and remotely unlock doors, significantly simplifying operations and enhancing user convenience.
