

3.5" Smart Control Panel

A smart home control panel with 3.5 inch IPS screen, it is a multifunctional interactive device that integrates three physical buttons, BLE Mesh gateway, 3 relay channels and infrared remote control. The built-in infrared remote control can directly control infrared devices such as TV and air conditioner at home.

Key Features

- 3.5 inch 480*320 IPS Screen
- 3 relay channels can replace traditional switches to control 3 lighting devices
- Built-in infrared emission tubes, support 12 categories of infrared device control
- Built-in BLE mesh gateway, support stable operation of 128 sub-devices
- Multi ways of device control include app control, scene control, touch control

Physical Properties

- | | |
|--|---|
| • Power Supply: AC 100-240V 50/60Hz | • Screen Size: 3.5 inch |
| • Operating System: Linux | • Screen Resolution: 480x320 pixels |
| • Protocol: Wi-Fi 2.4GHz, BLE Mesh, IR | • Working Humidity: 5%~90%RH (Non-condensing) |
| • Built-in: Infrared emission | • Working Temperature: 0~40°C |
| • Maximum Load: Maximum total load | • Size: 86*86*35.5mm (With Base) |

600W, Maximum load per channel 200W

Installation

- Installation: Flush mounting
- Flush Mounted Box: EU/GB standard
- Wiring Way: Live & Neutral
