VIDEO INTERCOM SOLUTIONS FOR MODERN LIVING

EASY & SMART
INTERCOM SOLUTIONS

DNAKE, a top innovator of intercom and home automation solutions, specializes in designing and manufacturing innovative and high-quality smart intercom and home automation products. Since its founding in 2005, DNAKE has grown from a small business into a globally recognized leader in the industry, offering a wide range of products, including IP-based intercoms, cloud intercom platforms, 2-wire intercoms, home control panels, smart sensors, wireless doorbells, and more.

With nearly 20 years in the market, DNAKE has established itself as a trusted solution for over 12.6 million families worldwide. Whether you need a simple residential intercom system or a complex commercial solution, DNAKE possesses the expertise and experience to provide the best smart home and intercom solutions tailored to your needs.

More than
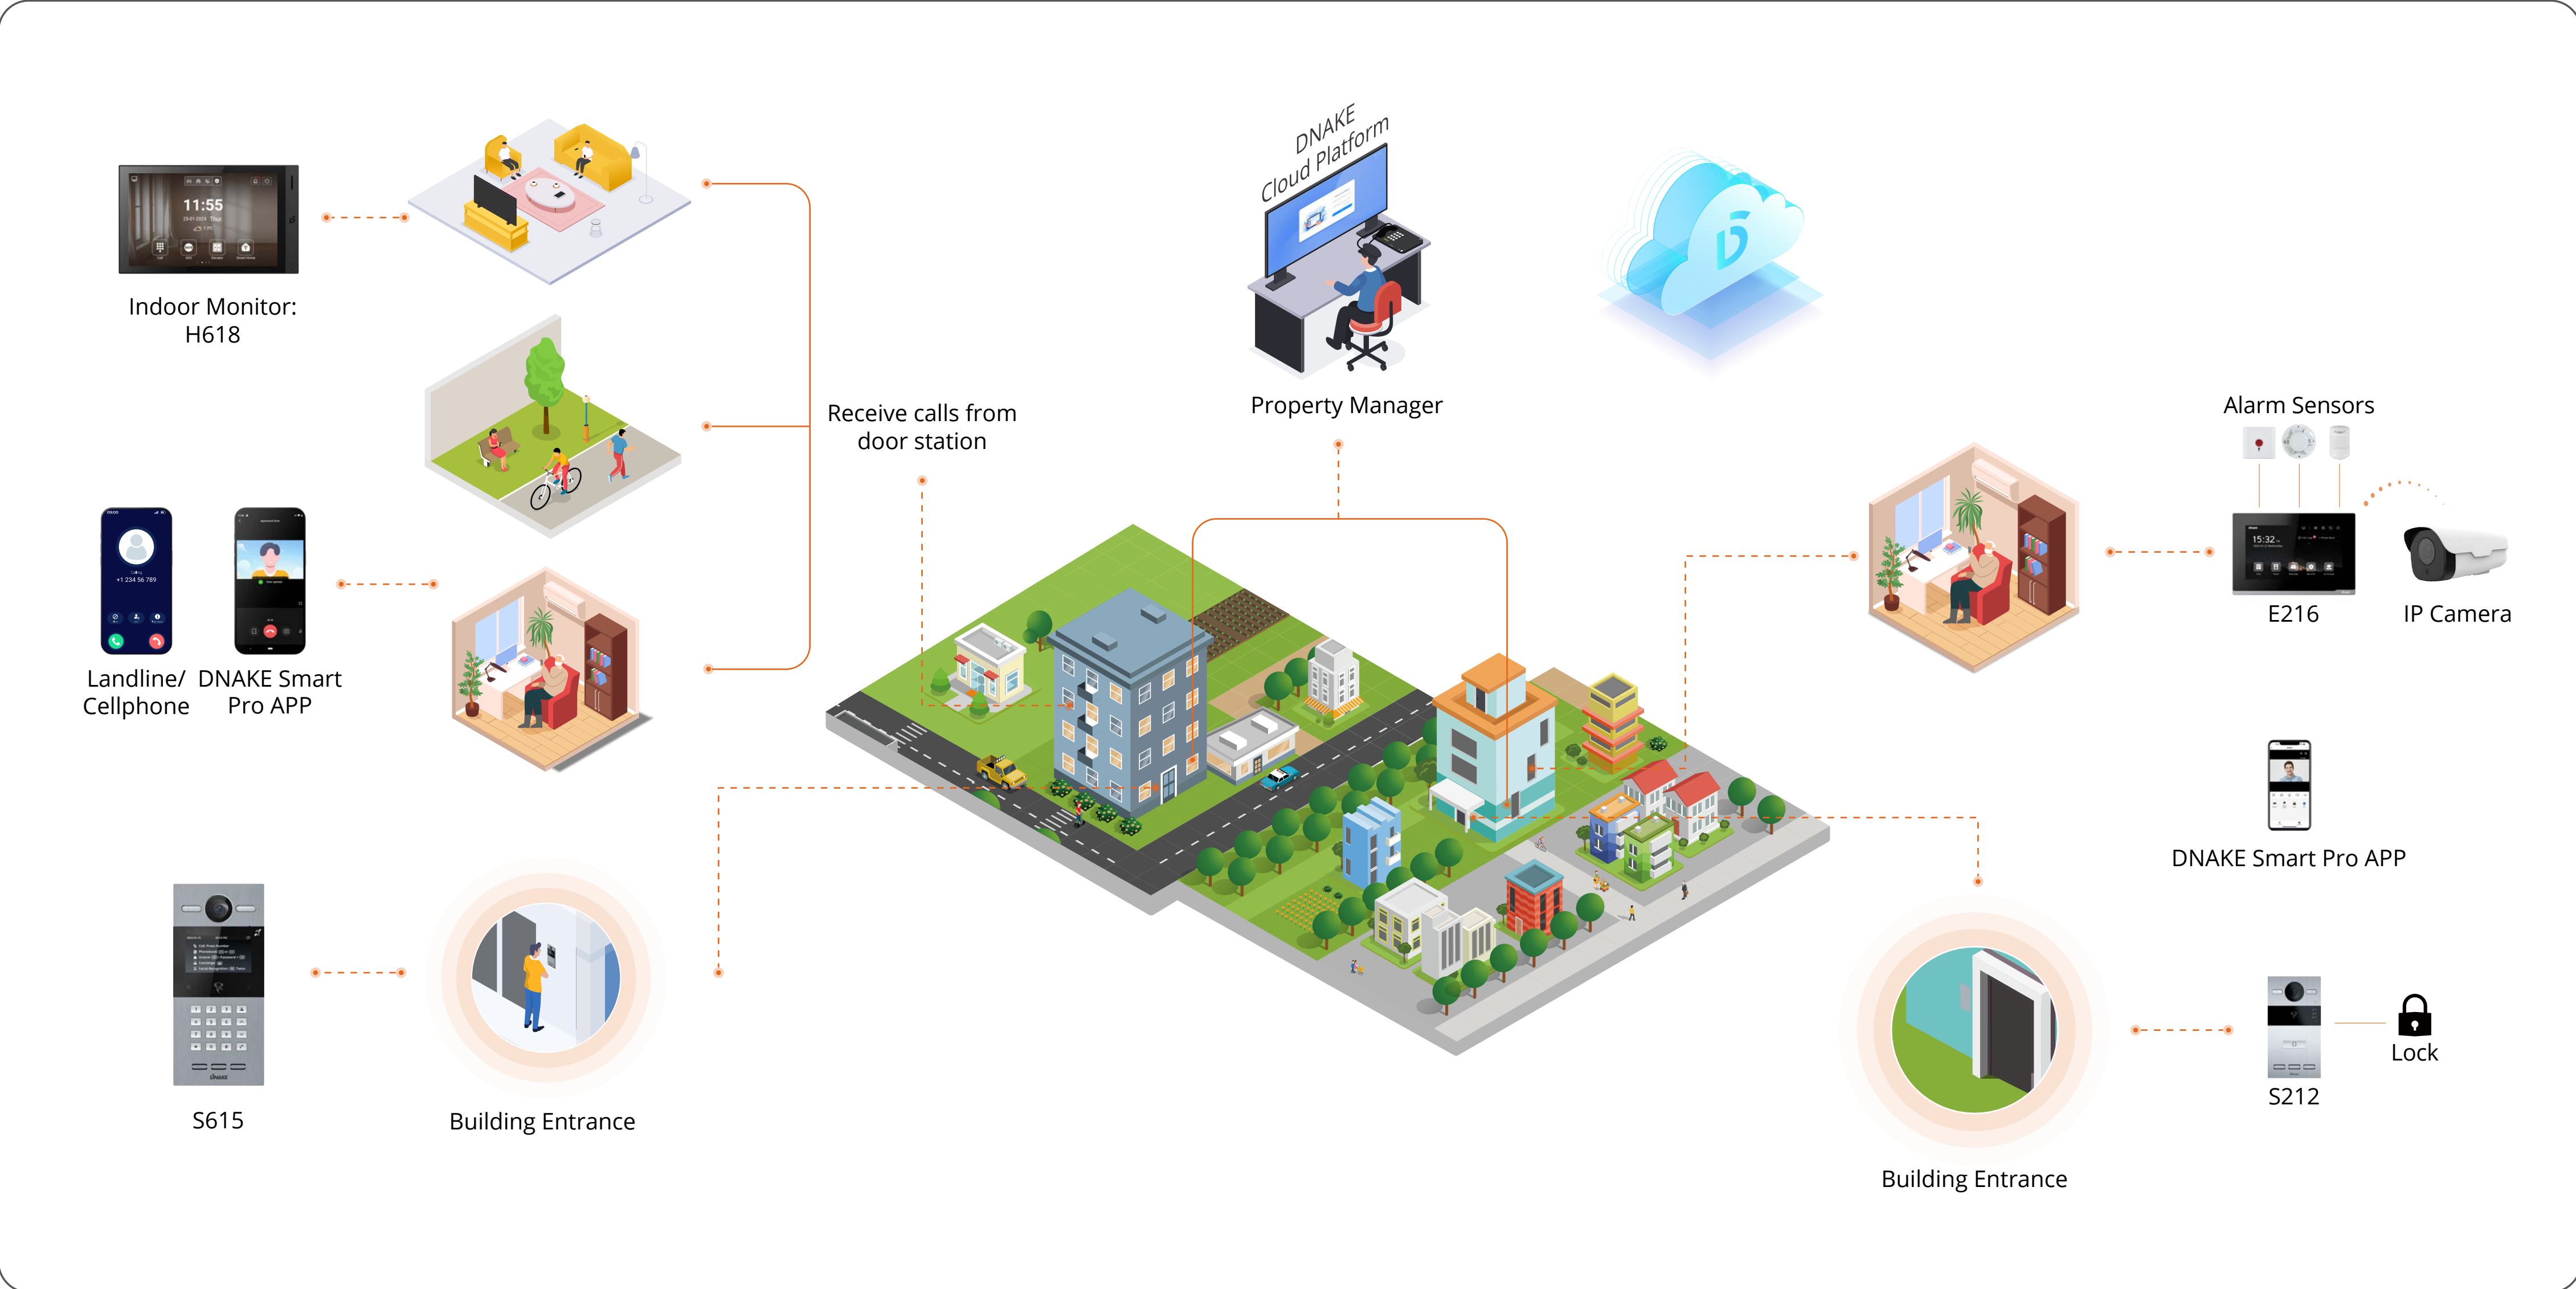

12,600,000+

families use DNAKE intercoms.

By now,
DNAKE has successfully implemented
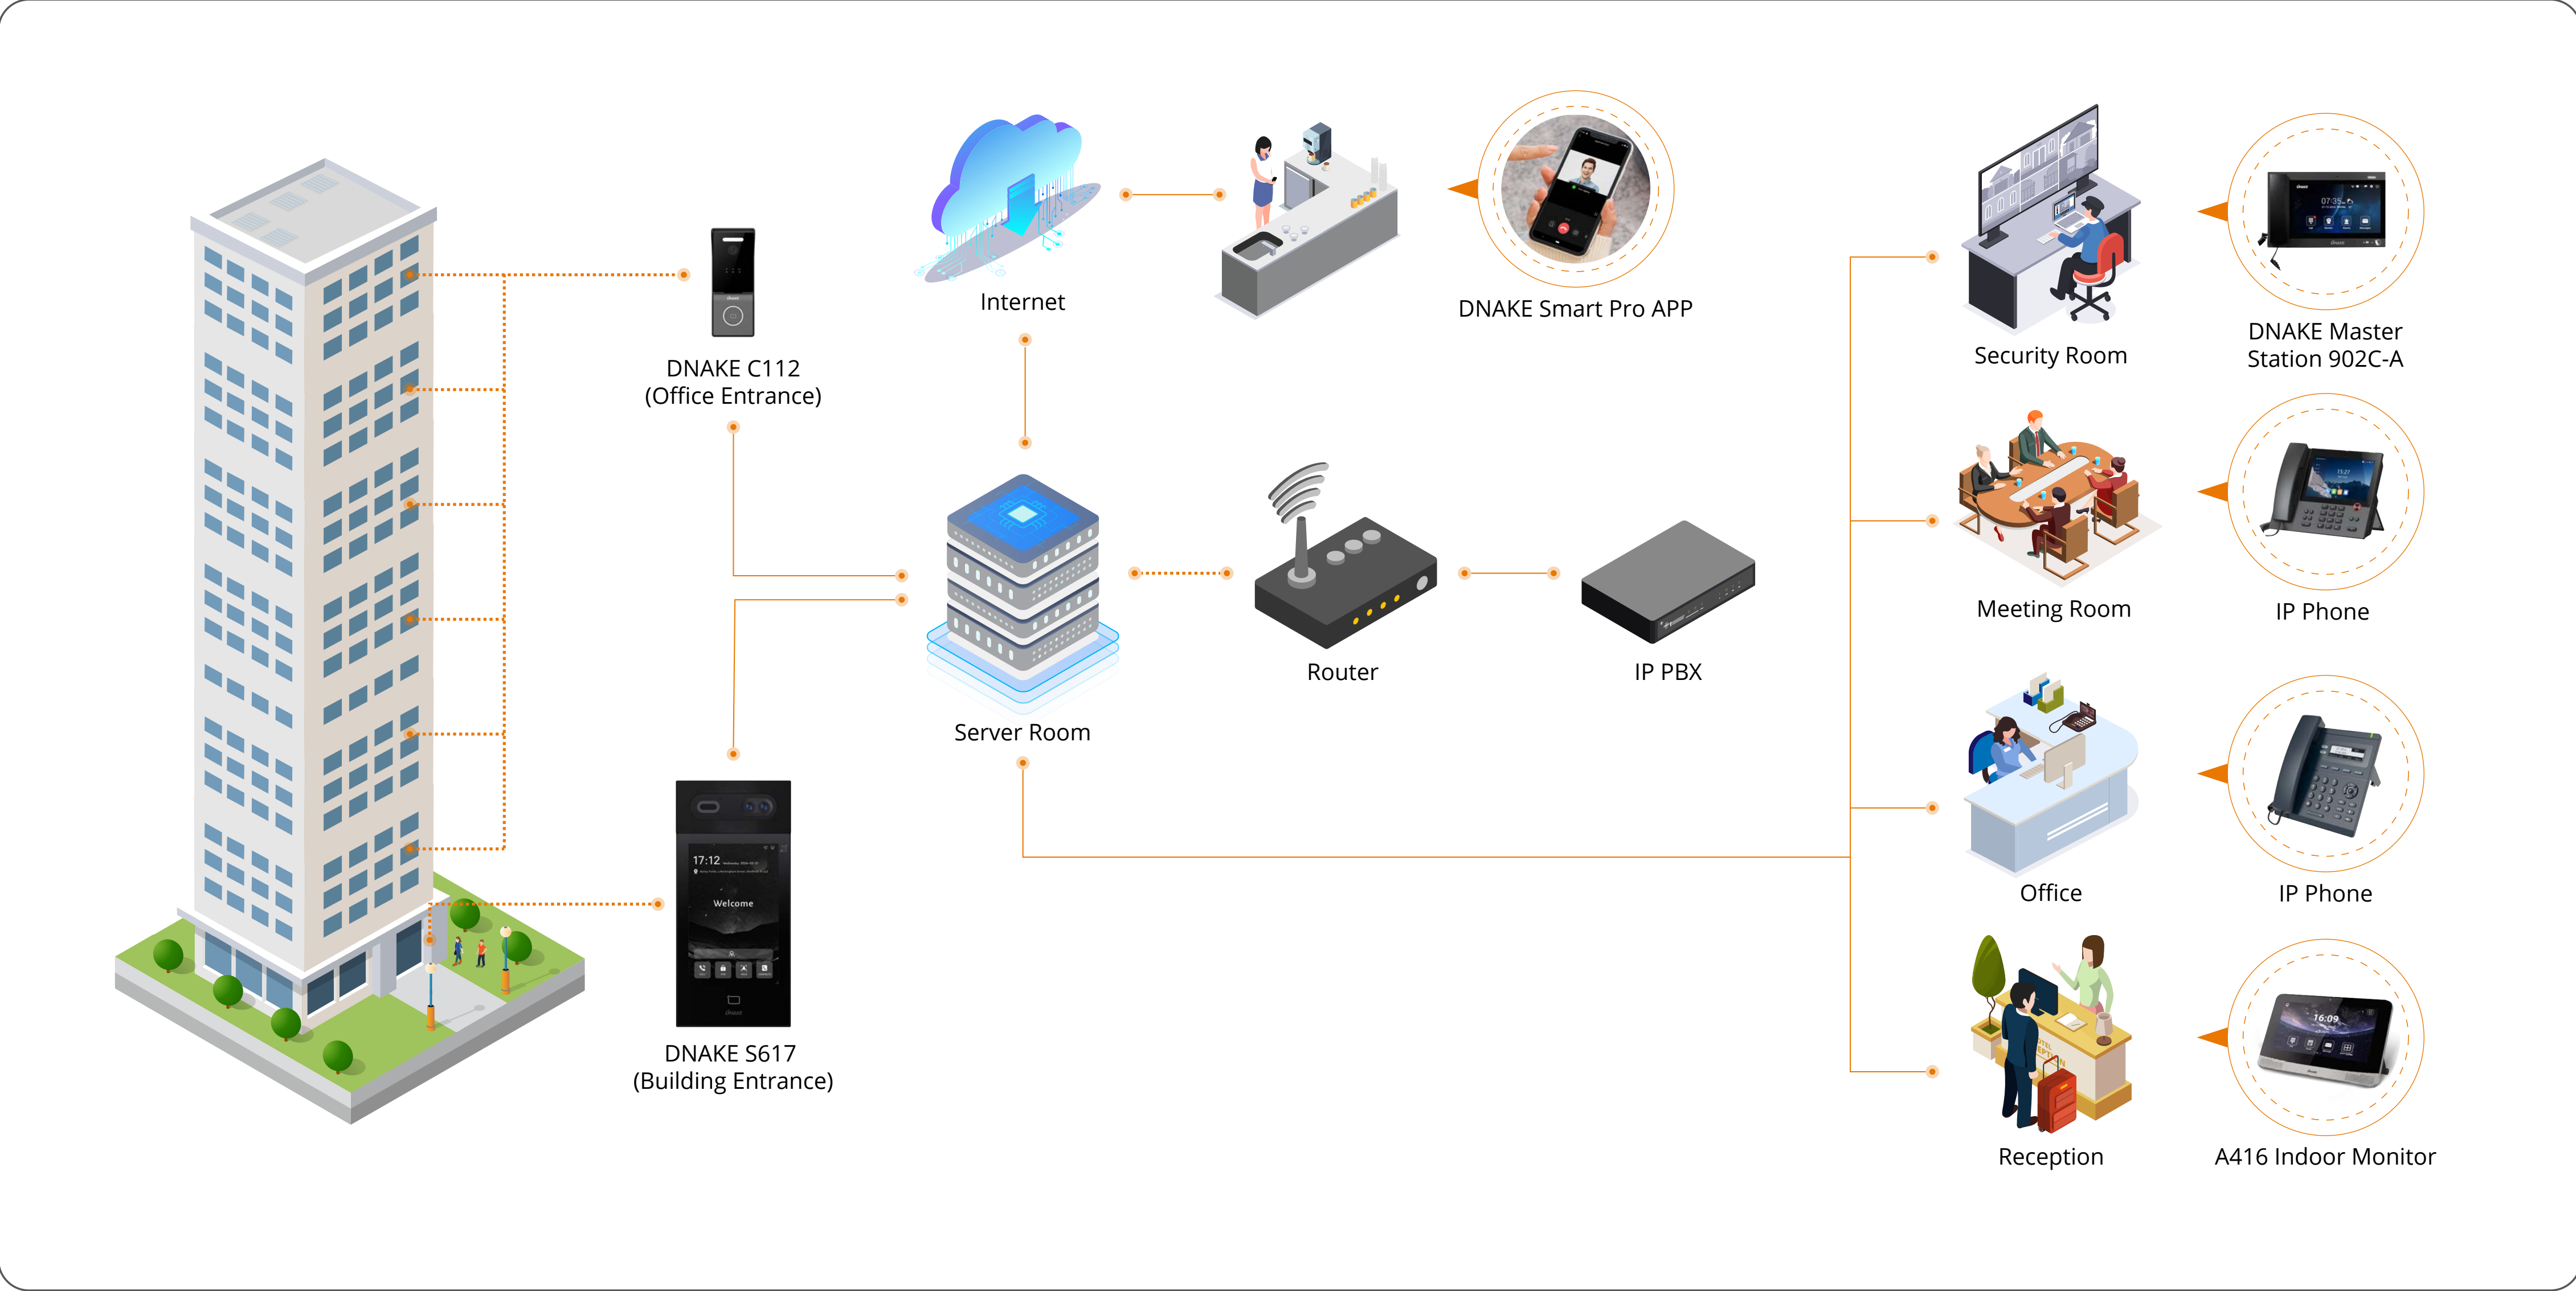

50,800+

residential & commercial projects.
