1 Monitor Tiandy IPC(TC-C35US) by DNAKE Indoor Monitor

1.1 IP camera monitoring

1. Connect the Ethernet cable to both IP Camera and Indoor Monitor. Please keep them under **the same LAN**.

2. Add IP Camera to the Indoor Monitor on the website:

- Step 1: You can double click IP address of the Indoor Monitor on the page of Remote Upgrade to open the website. You can also put Indoor Monitor's IP address in the browser's search bar to log in its webpage with account: user and password: 1234.
- Step 2: Go to IPC to name IP camera and type in URL. URL contains account, password, and IP address. Make sure URL of the IP Camera is right. Do not forget to Submit. The format of Tiandy IPC URL is: rtsp://<Account>:<Password>@<IP address>:554/1/1

	Submit

3. Add IP Camera to the Indoor Monitor's Camera page

• Step 1: Go to home page of Indoor Monitor and click Security.

• Step 2: Click **Camera** to enter the monitoring page and click the upper **camera icon** to monitor the camera.

The followings are introductions about the direction key to control monitoring of cameras:

- The **name** of IP Camera you are watching is in the center of the direction key.
- The upper **camera icon** is for starting monitoring and the **pause** key is below the direction key.
- The left and right key is for **switching** the cameras.

1.2 Switch the video between Door Station and IP camera

1. Connect the Ethernet cable to IP Camera, Door Station, and Indoor Monitor. Please keep them under **the same LAN**.

2. Add IP Camera to the Door Station on the website:

- Step 1: You can double click IP address of the Door Station on the page of Remote Upgrade to open the website. You can also put Door Station's IP address in the browser's search bar to log in its webpage with account: admin and password: 123456.
- Step 2: Go to Advanced to select RTSP Feed and type in URL. URL contains account, password, and IP address. Make sure URL of the IP Camera is right. Do not forget to Submit. The format of Tiandy IPC URL is: rtsp://<Account>:<Password>@<IP address>:554/1/1
